

Rapid Post-Acquisition Integration

After an Acquisition	<ul style="list-style-type: none"> • A portfolio company is acquired with a different email or identity environment • Leadership, finance, and operators need uninterrupted access at close • Identity, MFA, and administrative access need to be brought under control • Consolidation must not disrupt the business
What Defensible Delivers	<ul style="list-style-type: none"> • Day-1 access continuity for leadership and critical teams • Email, domain, and identity alignment across environments • Controlled transitions between Microsoft & Google platforms • Reduced long-term access and security risk
How It Works (4 Phases)	<ul style="list-style-type: none"> • Discovery & Planning • Pre-Migration Preparation • Migration & Cutover • Post-Migration Stabilization <p>Each phase is owned and executed to minimize disruption</p>
Outcome	<p>Operate from a unified email and calendar environment post-close without disrupting core operations</p>

Next Steps

A short scoping conversation to align on environment complexity, timing, and pricing

Discuss an Upcoming Acquisition
